

**M18-23**

## BARKING REACH

# BARKING BARRIER REDUCTION IN AIR DRAFT

On or about **27<sup>th</sup> March 2023** marine contractors working on behalf of Team 2100 will be erecting scaffolding across the top of Barking Barrier.

There will be scaffolding on both towers which will be erected predominately on the land until it reaches 37.3m above Chart Datum, thereafter it will move into and over the span on each site reducing the available air draft by 3.1m. In accordance with Thames Byelaw 36, a bundle of straw and a fixed white light will be suspended from the scaffolded areas to indicate a reduced height.

Telephone calls, VHF radio traffic, CCTV and radar traffic images may be recorded in the  
VTS Centres at Gravesend and Woolwich

Yokohama fenders will be placed on the inside of the barrier, thereby reducing width by 4m.

Safety boat **JUMBO** will be on station maintaining a listening watch on VHF Channel 14.

Further details will be broadcast by **London VTS** on VHF Channel 14.
