

NOTICE TO MARINERS No.L10 of 2011

DARTFORD CREEK

BARRIER RECOATING WORKS

Commencing on or around 16th May 2011, works will commence to replace protective coatings on the Dartford flood barrier. In order to achieve this, the barrier gates will be lowered restricting the available air-draught to 3.0m above Mean High Water Springs.

The lowered gate will be illuminated during hours of darkness.

Occasionally, it will be necessary to close the barrier for extended periods. Such closures will be broadcast by London VTS.

Works are expected to be completed by 1st September 2011.

Further information can be obtained from London VTS on VHF Channel 68.
