At that date, pensions from the Fund totalled £1,136,218 per annum.

Under section 222 of the Pensions Act 2004 every scheme is subject to the Statutory Funding Objective, which is to have sufficient and appropriate assets to cover its technical provisions.

The most recent full actuarial valuation of the Fund was carried out as at 31 March 2016.

In accordance with the Statutory Funding Objective, as at 31 March 2016, the assets covered 104% of the Fund's liabilities and the surplus was £1,168,000 (assets of £27,857,000 being more than liabilities of £26,689,000).

The next full valuation must be carried out with an effective date no later than 31 March 2019.

An increase in pensions of 3.50% was applied with effect from 1 December 2017 in respect of widows whose husbands had retired or died before 1 July 2016.

The increase will also be applied to widows' pensions and child allowances coming into payment in the future on the death of former members who left before 1 July 2017.

During the 12 months to 31 March 2018 net assets decreased by £1.532m to £27.591m. The bulk annuity has previously been treated as an expense and the Committee chose not to assign a value to it, as permitted by the previous SORP. Under the current SORP the Committee have included within the accounts an approximate valuation of the annuity policy. The liability to pay pensions remains with the Fund.
