

BUGSBYS REACH

TRINITY BUOY WHARF

MOORING PILE INSTALLATION

On or about Monday 6th November 2023, contractors from Topbond will be conducting UXO sampling and mooring pile installation at Trinity Buoy Wharf. These works will take place between the hours of 0700 and 1700 and are expected to take approximately 3 weeks.

As part of these works the jack up barge TOPJACK and the EMILIA D will be positioned alongside Trinity Buoy Wharf in the entrance to Bow Creek, as marked below.

Requests for vessels to proceed with caution or pass at slow speed will be made by London VTS on VHF ch.14, in accordance with the Port of London Authority's [Port Information Guide](#), under 'London VTS', section 4. When this is applicable, 'RY' signals will be displayed.

Masters of passing vessels should have due regard for the effects of their wash including the possibility of rebound from the river wall and the combined effect of wash from other vessels.

Further details will be broadcast by London VTS on **VHF Channel 14**, as required.
