A triennial actuarial valuation was carried out as at 31 March 2016. Under section 222 of the Pensions Act 2004, every scheme is subject to the Statutory Funding Objective, which is to have sufficient and appropriate assets to cover its technical provisions.

In accordance with the Statutory Funding Objective, as at 31 March 2016, the assets covered 67% of the Scheme's liabilities and the deficit was £1,231,000 (assets of £2,537,000 being less than liabilities of £3,768,000).

Following the valuation, the Trustees and the Authority put in place a Contribution Schedule with the aim of removing the deficit over the period to 31 March 2022. The Authority will contribute £215,000 per annum towards the deficit until 31 March 2022 in level monthly instalments of £17,917.

The next full valuation must be carried out with an effective date no later than 31 March 2019.

Pensions Increase

In accordance with the Rules of the Scheme, an increase of 3.00% in the allowances of members in Group A above was made with effect from 1 December 2016. The increase was also applied to deferred pensions.

Members in Group B received an increase of 3.00% with effect from 1 December 2016, whilst members in Group C received no increase in April 2016 due to negative CPI increases but received an increase of 3.00% payable from the Port of London Authority Pension Fund, with effect from 1 December 2016. This latter increase for members in Group C was offset against the payments being made, from the Scheme, to these persons. These increase percentages were applied to the total pensions received by the members from all of the Authority's pension schemes.

With effect from 1 December 2016 Members in Group D received an increase of 3.00% in accordance with the increase granted to the Port of London Authority Pension Fund members.
